Material Safety Data Sheet

Hangzhou Huaxiong Chemical Co.,Ltd

Trade name：DM011
Revision date: **08/04/2021**
Compile date: **05/07/2020**

Section 1 Chemical product and company identification

Product identifier:

Product name: **Caprylyl Methicone**

Trade name: DM011

Uses of the chemical product:

AS421 is caprylyl branched trisiloxane. It is used as carrier and dispersing medium for powders and pigments.

Supplier identifier:

Company name: Hangzhou Huaxiong Chemical Co.,Ltd

Address: Room 704, Building 12, Hangzhou Xintiandi Business Center, Gongshu District, Hangzhou,China

Postcode: 310000

E-mail: Alexandre.Sun@sinorisechem.com

Website: http://www.sinorisechem.com

Section 2 Hazards summarizing

Emergency Situation summarizing：

Properties: Liquid (25℃)

Color: Colorless

Smell: Characteristic

Hazards identification: Acute toxicity - Categor y 2 - Inhalation - H330

GHS Classification:

The product does not require classification and labelling as hazardous according to GB 30000.2-2013 ~ GB 30000.29-2013.

GHS Label Element:

Not a hazardous substance or mixture. The product does not require classification and labelling as hazardous according to GB 30000-2013.

Other Information:

According to the present state of knowledge provided this product is handled correctly, there is no danger to humans or the environment.

Section 3 Composition/information on ingredients

Main ingredient information:

Description of the chemical product: Mixture

Component	Cas No.	EC No.	Hazard classification according to CLP	Concentration (weight percent, %)
Caprylyl Methicone	17955-88-3	241-881-3	Acute Tox. 2 -H330	100

Section 4 First aid measures

Description of first aid measures：

If Inhaled: If inhaled, remove to fresh air. Get medical advice/attention.

In case of skin contact: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice. Take off contaminated clothing and wash before reuse.

In case of eye contact: Immediately flush eyes with plenty of water for at least 15 minutes. If eye irritation persists： Get medical advice/attention.

If swallowed: Call in a physician immediately and show him the Safety Data Sheet.

Notes for the doctor： Treat symptomatically.

Section 5 Firefighting measures

Extinguishing media：

Water spray jet, dry powder, foam, carbon dioxide (CO2) or sandy.Specific

Hazards arising from the substance or mixture：

In case of fires, hazardous combustion gases are formed: Carbon monoxide (CO)

Advice for firefighters：

Firefighter should wear appropriate breathing apparatus and protective equipment. Remove from fire to empty place. Cool containers with water spray. Provide adequate ventilation. Prevent fire extinguishing water from contaminating surface water or the ground water system.

Section 6 Accidental release measures

Personal precautions, protective equipment and emergency procedures:

Wear suitable protective equipment. Remove all source of ignition. Avoid contact with skin and eye. Avoid breathing vapors. Ensure adequate ventilation.

Environmental precautions:

Do not allow to enter drains or waterways.

Methods and material for containment and cleaning up:

If available, immediately cut off the source of leaked chemical products. Remove all sources of ignition. Absorb spill with incombustible inert material (eg.dry sand or earth), then place into an airtight container. Avoid runoff into storm sewers and ditches which lead to waterways.

Measures to prevent secondary hazards：

Avoid dust and secondary leakage during cleaning.

Section 7 Handling and storage

Precautions for safe handling：

Operators must receive special training and strictly abide the procedures. Do not handle until all safety precautions have been read and understood. Avoid

contact with eye or skin. Avoid breathing dust, fume, gas, mist, vapour or spray. Use personal protective equipment as required. Wear protective gloves, protective clothing, eye protection, face protection. Wash thoroughly after handling. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Ground/bond container and receiving equipment. Use explosion-proof electrical, ventilating, lighting, equipment. Use only non-parking tools. Take precautionary measures against static discharge.

Conditions for safe storage：

Store the product in dry, cool and well-ventilated place. It is recommended to store in the original container and keep the container tightly closed. Keep away from heat/sparks/open flames/hot surfaces.

Section 8 Exposure controls/personal protection

OEL (Occupational exposure limit): no data available

Monitoring methodology: no data available

Engineering control method:

Use adequate general or local exhaust ventilation to keep airborne concentrations below the permissible exposure limits.

Personal protective equipment：

Respiratory protection： Keep ventilating, no respiratory protection is required.

Eye protection ： Wear safety glasses; Use eye-wash equipment.

Skin and body protection： Wear protective working clothing and apron.

Hand protection： Use protective gloves.

Section 9 Physical and chemical properties

Appearance： Colorless to slight yellow transparent liquid

Odor: Slight Odor

Viscosity at 25°C (77°F): 2~4cSt

Odour： No special odor

Boiling point： No data available

Flash point：>158

Auto-ignition temperature： No data available

Oxidizing properties ： Not tested

Explosion properties ： Not applicable

Solubility ： Easily soluble in ethanol, ether and other organic solvents

Partition coefficient: Not tested

Density: No data available

Melting point ： Not tested

Solidification point: Not applicable

Section 10 Stability and reactivity

Chemical Stability： Stable under normal conditions

Possibility of hazardous reactions：

No dangerous reaction known under conditions of normal use.

Conditions to avoid： Not known

Materials to avoid： Oxidizing agent

Hazardous decomposition products： Carbon monoxide (CO)

Hazardous polymerization： No reaction

Section 11 Toxicological information

Acute oral toxicity： No information available

Skin corrosion/irritation： Skin contact may cause slight corrosion/irritation

Serious eye damage/ eye irritation： Eye contact may cause damage /irritation

Respiratory or skin sensitization：

Inhalation may cause irritation of the respiratory tract, skin contact can cause skin allergic reaction.

Germ cell mutagenicity: Not classified as germ cell mutagenicity.

Carcinogenicity: No information available.

Reproductive toxicity: No information available.

Specific target organ system toxicity –single exposure： No information available.

Specific target organ system toxicity

Repeated exposure：No information available

Repeated dose toxicity：Not tested.

Section 12 Ecological information

Ecological toxicity： No information available

Persistence and degradability： No information available

Bioaccumulative potential： No information available

Mobility in soil： No information available

Section 13 Disposal considerations

Waste treatment methods：

Conform to the standards provided by related laws and local public bodies.

Contaminated packaging：

Recycle containers after cleansing or carry out the disposal according to the related laws, regulations and the standards of the local government.

Section 14 Transport information

UN number（United Nations dangerous goods number）：

Not listed in the List of Dangerous Goods.（GB 12268-2012）

Shipping name： No information available

Class： Not listed in the List of Dangerous Goods.（GB 12268-2012）

Packing group： No information available

Label(s) for transport: No information available

Packing methods： Plastic or Iron Drums

Marine pollutant (Yes/No)： No

Other information:

Transportation notes: Transport in accordance with non-toxic and non-hazardous chemicals. The transport vehicles should be equipped with the corresponding variety and quantity of fire equipment and leakage emergency treatment equipment. Make sure that the container does not leak, collapse or damaged during transportation. Mixed Transportation especially mixed with oxidizing agents or food chemicals is strictly prohibited. The products should be protected from rain, blazing sun and high temperature during transportation. Stay away from heat sources during stopovers. Thoroughly clean the transport vehicles after transported.

Section 15 Regulatory information

China regulations：

The following laws/regulation/standards specify corresponding on the safe use, storage,transportation, loading and unloading, classification and labelling of the chemicals.

Rules for classification and labeling of chemicals （GB 30000-2013）

General rule for classification and hazard communication of chemicals

（GB13690 -2009）

General rules for preparation of precautionary label of chemicals

（GB 15258-2009）

Guidelines for implementation of the catalogue of hazardous chemicals

(2015) (Trial)

Classification and code of dangerous goods（GB6944-2012）

Prevention and Control Law of Occupational Diseases of the PRC：

Classification of Hazardous Factors of Occupational Diseases.（2015）: Not listed

Regulations of the safety management of hazardous chemicals:

Directory of hazardous chemicals (2015): Not listed

List of dangerous goods（GB 12268-2012）: Not listed

Regulations on the import and export of toxic chemicals for the first time:

Strict limits toxic chemicals list of china（2018）: Not listed

Environmental management methods for new chemical substances:

IECSC (2013): Listed

Section 16 Other information

Other information:

Observe national and local legal requirements.

This information corresponds to the present state of our knowledge and is intended as a general description of our products and their possible applications. Sinorise makes no warranties, express or implied, as to the information's accuracy, adequacy, sufficiency or freedom from defect and assumes no liability in connection with any use of this information.

Any user of this product is responsible for determining the suitability of the products for its particular application. Nothing included in this information waives any of Sinorise's General Terms and Conditions of Sale, which control unless it agrees otherwise in writing.

Any existing intellectual/industrial property rights must be observed. Due to possible changes in the products and applicable national and international regulations and laws, the status of our products could change. Safety Data Sheets providing safety precautions, that should be observed when handling or storing products, are available upon request and are provided in compliance with applicable law. You should obtain and review the applicable Safety Data Sheet information before handling any of these products.
